- Manual defrost
- 7 Setting temperature turn control
- Thermostat light indicator
- Max freeze setting for fast freezing.
- Internal removable basket
- Manual drainage system
- Mobile unit with rollers
- 3 Star energy rating
- Textured Grey finish

INTERNAL REMOVABLE BASKET

The internal removable basket can be used to store smaller frozen goods and make them easily accessible from the chest freezer.

MANUAL DEFROST

To remove any ice build-up in the unit, the freezer can be defrosted manually. Simply place a tray under the drain plug, remove any stored food, switch the unit off and open the drain plug as described in the user manual.

FOR BEST RESULTS

This unit should be installed in cool dry place, with room for air to circulate around the unit

7 SETTING TEMPERATURE TURN CONTROL

The variable control temperature setting, enables the chest freezer to be operated at different levels to match you individual freezing requirements. Setting 5 is the recommended freezer setting for everyday use.

MAX FREEZE SETTING

Perfect for when you return home from shopping on a warm day, Max Freeze Setting is designed to fast freeze large amounts of food. This setting should be used for the first 24 hours, then the freezer should be reset to its usual "every day" setting 5.
