LED MIRRORED SHAVING CABINET INSTALLATION

Notes: This device contains no serviceable parts.

If the supply cord is damaged it must be replaced by the manufacturer, its service agent or similar qualified persons in order to avoid potential hazard.

1. Check Products for any Damage.
Do not install if any damage is found.

2. Lay the cabinet flat and remove carefully from packaging.

3. Remove all parts from packaging, check and prepare all parts for installation.

4. Ensure cabinet is level when storing and preparing for installation. Please note DO NOT allow cabinet corners to be placed on hard surface to avoid chipping or cracking of mirror corners.

5. Mark out cabinet corners in the location you would like mirror to be placed at and ensure it is level.

6. Mount cabinet to wall and mark out locations of drill holes that are pre-drilled, on the wall. Then remove cabinet from wall.

LED MIRRORED SHAVING CABINET INSTALLATION

Notes: This device contains no serviceable parts.

If the supply cord is damaged it must be replaced by the manufacturer, its service agent or similar qualified persons in order to avoid potential hazard.

7. Drill holes for mounting screws provided, ensure these are drilled into supporting wall (through masonry, brick wall or noggin) to support the cabinet load).

8. Hammer in plugs into the drill holes.

9. Assemble screws, rings, and parts for mounting.

10. Mount cabinet to wall and install all screws and rings. Ensure all fixing points are secure and tightly screwed in.

11. Add caps to conceal screws.

12. Now that cabinet is installed, prepare electrical connection for the LED component.

LED MIRRORED SHAVING CABINET INSTALLATION
