592L FOUR-DOOR FRIDGE-FREEZER

FEATURES & BENEFITS

6TH SENSE INTELLIGENCE

With set of smart sensors and intuitive functionalities that create the optimal environment for food preservation. Thanks to 6TH SENSE Technology and its advanced preservation features, helps you to organise food according to personal needs, always guaranteeing the best preservation conditions.

INTELLIGENT TRIPLE COOLING SYSTEM

Three independent cooling No Frost systems create tailored temperature and humidity in the three compartments preventing odors mixing and keeping food fresher for longer. Air doesn't flow from one interior to the other, ensuring the ideal temperature and humidity are kept for the three of them. Forget about defrosting, and taste food at its best, fresher and for longer.

ZEN INVERTER TECHNOLOGY

With Zen Inverter Technology, this fridge will adjust the compressor operation to achieve the cooling performance in a short time and meanwhile to save energy and electricity. ZEN Inverter Technology make operation more silent, it avoids the noise generated in traditional compressor on off.

6th SENSE FRESHLOCK

The intuitive 6th Sense FreshLock will automatically detect temperature variations in order to restore the optimal environment to preserve fresh food for longer in the most natural way.

6th SENSE FREEZELOCK

Within the freezer compartment, 6th Sense FreezeLock minimises temperature fluctuations in the freezer, reducing freezer burns and preserving the quality of food.

WARRANTY

5 year Warranty on parts and labour.
